Summary of Qualifications

More than 8 years of experience in web-development, web systems administration (Apache, Nginx, MySQL, Sphinx, PHP, Gearman, Mercurial/SVN), database design and query optimization, organic SEO (Search Engine Optimization), working with version control.

I have implemented a number of high volume projects from the ground up using a wide range of technologies both old and new. I am always looking to push forward best-practice for development and ensure a high level of attention to detail.

I am flexible, responsible, punctual and capable person, always open to new opportunities and challenges.
